

Flat

-product card

The Tarasola Flat has been created with modern architecture in mind and can be perfectly and stylishly integrated within it. The construction is made from extruded aluminium. Its retractable fabric roof visually distinguishes it through a light and simple form, which is also solid and durable at the same time. The Tarasola Flat can also come with additions such as lighting, infrared heaters and sliding glass, which allow you to use the pergola until late autumn.

SPECIFICATION

- Construction made from corrosion resistant extruded aluminium.
- Electric motor control included in the price.
- TechProtect roof fabric - comes as standard (other fabrics available on request).
- Possibility of powder coating in any RAL colour.
- Available in wall-mounted and free-standing version.
- Option of modular connection.
- Construction's wind resistance up to 120 km/h.
- Possibility of installing a fabric visor.
- Option of additional accessories:
 - lighting,
 - glazing,
 - roller blinds (screeners),
 - radiant heaters,
 - wind, solar and rain sensors.

Infrared heaters

LED lighting - spotlights

LED lighting - LED strip lights, integrated with the gutter

Infrared heaters

power

Infrared heater GR1 - controlled by a switch with a LOW GLARE emitter that generates less light, water-tight class IP65, colour: white or black, usually controlled by a wall switch. For external use.

1,5 kW

Infrared heater GR2 IR - a infrared heater with a built-in infrared receiver, remote control and a LOW GLARE emitter that releases less light. Water-tight class IP65, colour white or black, controlled by an infrared remote control (in set). For external use.

1,5 kW

Infrared heater Gr1 + receiver Somfy RTS 2 kW

Infrared heater Gr1 + receiver Somfy IO 2 kW

Additional infrared remote control

Radio receivers for infrared heaters GR1

Somfy RTS receiver

Enables to operation of the infrared heater by remote control in range of on/off. Works with TELIS remote control.

For the single infrared heater max. power 2 kW

Somfy RTS MODULIS Receiver

Enables to operation of the infrared heater by remote control in range of on/off and regulate the intensity of heat in range from 0% to 100%. Works with remote control TELIS MODULIS (recommended) and TELIS remote control.

For of 1 to 2 infrared heaters of total power 3 kW

TELECO ON/OFF Receiver up to 1-2 pcs infrared heater 3kW

For of 1 to 2 infrared heaters of total power 3 kW

SOMFY IO ON/OFF Receiver for 1 infrared heater 2kW

For the single infrared heater max. power 2 kW
